---	--

AGENDA ITEMS

4. Introduction and welcome	<p>Welcome and thank you to Alex for hosting the meeting. Alex is a RN who is now more involved in Health and Safety and her role is Health and Safety Advisor for Rotorua Hospital. Plays a small part in moving and handling.</p>
------------------------------------	---

5. Presentation from guest Dafydd Hughes and morning tea thank you.	<p>Dafydd Hughes is Team Leader for Essential and gave a very knowledgeable presentation regarding the Hospital environment, and availability of equipment that suits the different patient needs. Free ED system which is free rental of equipment for the bariatric patient until admitted to ward. Kiosk system which we have in TGA and WHK. Rural areas. Benefits of the bariatric beds, pressure relief mattresses, and challenges within the hospitals, patient transfers, training videos and the service they provide.</p>
--	---

6. MHANZ Website	<p>Showed the girls the new website and new ideas that are being introduced. Easier to use especially the forum and registration. Being totally upgraded.</p>
-------------------------	---

7. Roadshow 2018 and videos

Discussed the Roadshow 2018 and the dates and places planned. Very enthusiastic and pleased about one being held in Rotorua. Will try and attend.

Angela showed some videos of equipment and story of nurses working in ICU in Sweden.

8. Problem's in your area

These included,

Parent beds for 4B, Angela to send details to Ross the CNM.

Confused patients and incorrect moving and handling in SHSOP, Angela to do in-service on ward.

Celling track in SHSOP too close to the wall, Angela to investigate.

4B older staff still using old ways to lift spinal patients need education.

4B workloads, REF's, union, 5.8 short now improved and with huge satisfaction.

Alex, hoist does not go to the floor, suggested to trial the Molift Stretcher, Hoverjack and Hovermat. Problem when moving a patient in radiology from the chair to the trolley that had a post hip replacement.

Nicky stability of equipment for Bariatrics.

Jeanette how to mobilise a bariatric patient who is none weight bearing on one leg. Second patient Bariatric patient with bilateral # neck of femur bed rest for 6 weeks.

Nicky attended the HZANZ conference and saw presentations from Vincent Costello about the Periodic table of concerned communication and used a message map so one person can remember key messages.

9. Sling Labels

Angela discussed the process of renewing the patient sling labels that have faded or fallen off the sling. Showed a presentation of the process which took 2 years to complete.

10. Conclusion and close

Great networking day. Looked around the hospital and some of the wards. Thanks again to Alex.

Helpful to consolidate with others and talk about our problems. Good learning from the day. Important to meet away from work have these very informative discussions.

Looking forward to next meeting.

Meeting closed at 3pm.

11. Next Meeting

To be arranged.
